25	Open University of London Dr Marcus Ramage, Prof Ray Ison	26	Haiphong Peoples Committee, Vietnam Professor Dan Duc Hiep; Dr Nguyen Van Thanh
27	Hanoi Agricultural University Dr Thanh Van Mai	28	Argentina Systems Society President: Dr Eva Sarker
29	Collective Intelligence Enhancement Lab, Dr George Por	30	International Centre for Complex Project Management, Australia. CEO Dr Stephen Hayes MBE

The activities of the current Systems Design and Complexity Management Alliance are coordinated by a core group within The University of Adelaide Business School. The diagram illustrates the difference between a Centre (in one location) and a formal Alliance reaching world-wide. Interactions with other Schools and Institutes within the UA have not been indicated. Members of the alliance are only institutions and collaborators with world renowned expertise in systems design and complexity management. and do not include research project collaborators.
